STERiSHIELD²⁴

The Long-lasting Smart Surface Protector

Protects against Coronaviruses,
Flu and Norovirus

FEATURES & BENEFITS:

- Unique enzyme formula = no harsh chemicals
- Protects against all coronaviruses for 24 hours
- Long lasting against all enveloped viruses including Flu Virus
- Works well against norovirus and other non-enveloped viruses
- Safe to use on all food preparation surfaces

EASY APPLICATION:

Clean - Spray - Walkaway

For best long term protection, disinfect your surface first. Then apply STERiSHIELD 24 with a continuous simple spray-mist application from a distance on all surfaces to be treated and allow to dry – do not wipe off.

STERiSHIELD 24 will then continue to work, shielding & protecting everyone, for up to 24 hours, stopping all cross contamination of potential coronaviruses inc. COVID-19, no matter how many times the surface is touched or re-infected. Also effective against Flu and Norovirus.

SAFETY:

- Kind on high traffic surfaces and soft furnishings
 - Friendly to people and the environment
 - Suitable for Clinical, Care or Commercial use
 - Safe for water courses
- A cleaner & greener solution

TESTS PASSED:

BS EN14476

PATENT STATUS:

Patent filed and Pending

PPE REQUIREMENT:

No special PPE is required, but we recommend the wearing of gloves and a suitable face mask for fogging

Safety data (MSDS) sheet available on request

Developed & tested in partnership with The University of Exeter
